NEWLIFE INTERNATIONAL SCHOOL OF MIDWIFERY

SCHOOL PERFORMANCE FACT SHEET

PUBLIC INFORMATION FOR CURRENT AND PROSPECTIVE STUDENTS

1. Institutional Information

Institution	Newlife International School of Midwifery (NISM)
Website	https://www.midwifeschool.org
Mailing address	707 Kasota Ave, Jordan, MN 55352
Physical office address	1580 White Oak Drive, Chaska, MN 55318
Current enrollment	51 students as of October 5, 2026
Program offered	Associate of Science in Midwifery
Program length	2.5 years minimum; 6 years maximum. Applies to both U.S. and overseas cohorts.
Accreditation	Accredited by the Midwifery Education Accreditation Council (MEAC) since August 12, 2026.

2. Mission Statement

At Newlife International School of Midwifery, we train compassionate, skilled midwives who are grounded in Christian values and committed to providing holistic, culturally responsive maternity care across the globe. Rooted in a spirit of faith, compassion, and service, we empower students with the knowledge, skills, and cultural awareness needed to address maternal health inequities worldwide. We cultivate a nurturing, inclusive community that honors diversity, equality, and dignity, with the aim of creating a ripple effect of compassionate, respectful care that enhances the well-being of mothers and infants, one birth at a time.

3. Enrollment and Student Retention

NISM had 51 students enrolled as of October 5, 2026. The annual retention figures below represent each year's entering intake for NISM's Associate of Science in Midwifery program, the institution's only program. Figures indicate the number of students retained after one year.

Entering intake	Students enrolled	Retained after one year	Retention rate
2024	25	17	68%
2025	32	24	75%
2026	Not yet available	Not yet available	Not yet available

Retention rate is calculated as the number of students retained after one year divided by the number of students in the entering intake. The 2026 one-year retention figure is not yet available.

4. Graduation and Graduate Outcomes

NISM has not yet graduated its first cohort. Therefore, graduation/completion rates, graduate employment outcomes, and graduate career outcomes are not yet available.

Measure	Current status
Graduation / completion rates	Not yet available — NISM has not graduated its first cohort.
Graduate employment / career outcomes	Not yet available — NISM has not graduated its first cohort.
NARM examination outcomes	Not yet available — no NISM graduates have taken the NARM examination.

5. Tuition and Fees

NISM's tuition and fees were updated and published October 1, 2026. Charges vary by cohort and enrollment status. The amounts below summarize published costs; students should use the official tuition pages for full details and updates.

U.S.-Based Cohort

Visa	Variable; published estimate approximately $500

Full tuition and fee details: https://www.midwifeschool.org/fees and https://www.midwifeschool.org/tuition. NISM's published tuition information states that the school does not offer financial aid. Additional costs may apply; consult the official website for current details.

6. State Authorization

NISM's currently reported state authorizations for distance education are: Alabama, Colorado, Florida (academic study only), California, Montana, Minnesota, Tennessee, Idaho, South Carolina, Hawaii, Massachusetts, Nebraska (academic study only), and South Dakota. Authorization status can change. Prospective students should contact NISM to confirm enrollment eligibility based on their state of residence before applying.

7. Student Support and Program Expectations

NISM's program combines academic instruction with supervised clinical education. Students should consult the current academic catalog, course syllabi, and clinical handbook for complete requirements related to academic progress, clinical placements, graduation, attendance, and student support. Students are responsible for confirming applicable certification, licensing, and practice requirements with the relevant credentialing and regulatory authorities.

8. Important Disclosures and Reporting Notes

Completion of the program does not guarantee eligibility for certification, licensure, or practice in every jurisdiction. Certification and licensing requirements vary by jurisdiction and may change. NARM examination results and graduate outcomes will be reported when NISM has graduates and reliable data are available.

Fact sheet updated: October 2026. Enrollment count reflects October 5, 2026. Retention rates reflect the 2024 and 2025 entering intakes and are calculated using students retained after one year divided by the original entering intake. This document provides general information to current and prospective students. For current costs, authorization questions, and program details, consult NISM's official website or contact the school.
